

Justin Hogg

CAD DESIGN TECHNICIAN
SANCHEZ & ASSOCIATES, LLC

SUMMARY OF QUALIFICATIONS:

Versatile construction and design professional with almost a decade of experience in ground-up builds, renovations, and tenant finish-outs. Skilled in creating drawing packages, interpreting technical schematics, and refining AutoCAD details. Proven ability to coordinate design, engineering, and supply resources to deliver projects on time and budget while adding client value. Project experience spans restaurants, offices, warehouses, residential additions, churches, and commercial developments.

AREAS OF EXPERTISE:

Justin Hogg is a skilled design professional with proficiency in Civil 3D AutoCAD 2022 and extensive experience in CAD drafting, MEP design, and structural and architectural coordination. His expertise spans roadway and site design, where he combines technical precision with a strong understanding of multidisciplinary project requirements. Justin excels in project planning, coordination, and team collaboration, contributing to efficient workflows and successful project delivery. He is also experienced in training and development, supporting team growth and ensuring consistency in design standards and quality.

WORK EXPERIENCE:

Sanchez and Associates, LLC, Texas, United states

May 2025 – Present

CAD Design Technician

Justin brings extensive expertise in design, construction management, and renovation within an open-book environment that prioritizes transparency and value. He develops comprehensive drawing packages for both commercial and residential projects, including ground-up builds, tenant finish-outs, and renovations. By coordinating resources across design, engineering, and supply partners, Justin ensures projects are delivered on time and on budget, reinvesting savings back into the project to maximize client value. Skilled in interpreting technical drawings, schematics, and reports, he makes precise revisions to AutoCAD details. His project experience spans restaurants, office spaces, and office/warehouse facilities.

CAD Design Technician

August 2013 – Present

Better Design Resources

- Design, build, renovation, construction management in an open-book environment.
- Drawing package creation of commercial or residential ground-up, tenant finish-out, and renovation projects.
- Draw together all resources from design, engineering, and supply sources to accomplish project on time and on budget. Plow savings back into project to add value to my services for client.
- Interpret technical drawings, schematics and reports to make revisions to AutoCAD drawings/details.
- Projects ranging from restaurant, office & office/warehouse, residential addition, ground up church, or commercial

Apprentice Plumber

November 2024 – March 2025

DFW Mechanical Group

- Help Plumber with tasks.
- Ensure materials and tools are available for plumber.
- Identify leaks and issues throughout the process.
- Logged work orders and filled out paperwork for plumber.
